WEBSITE CHATBOT

Diya AI for Derma Solutions

A guided chat assistant for dermasolutions.co.in. Patients explore treatments, meet the doctors and book in a few taps, and every conversation ends in a lead the team can act on.

Desktop

Mobile

Item	Detail
Brand color	Dark brown #481E0B with honey #FFCC70 highlights
Timings	Monday and Wednesday to Sunday, 10 AM to 8 PM. Tuesday closed
Desktop	Floating panel, 380 x 580, bottom right
Mobile	Bottom sheet, 88% height, full height while typing
Header	Diya AI, Instant Reply Assistant, refresh, close
Footer	AI Generated Responses, Not For Medical Advice. Powered By Brilliant Brains

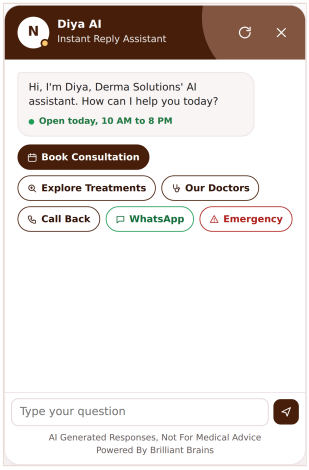

The 6 main buttons, shown as pills

Button	What it does	Ends in
Book Consultation	Book in-clinic, online consultation, cancel or reschedule, with doctor choice	Appointment request
Explore Treatments	5 website categories, 41 treatments	Book for this treatment
Our Doctors	Carousel of 4 doctor cards	Book now or View profile
Call Back	Name, number and reason	Callback request
WhatsApp	Opens WhatsApp with a ready message	WhatsApp chat
Emergency	Warning signs and 108 guidance	Call 108 or the clinic

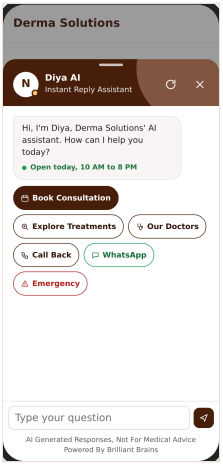

1 Arrive	2 Choose	3 Guided steps	4 Capture	5 Clinic team
Any page	**6 main pills**	One question	Name and contact	**Lead to CRM**
Launcher bubble	**Typed concern**	at a time	Doctor and date	Calls to confirm

SAFETY Clinical questions go to the doctors. Emergencies go to 108. Answers are marked as AI generated.

Home screen helpers

Desktop

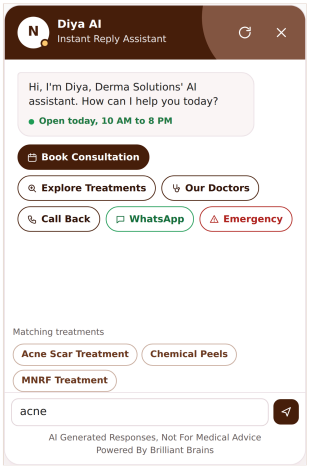

Mobile

Status

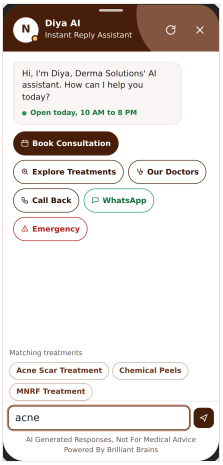

Clinic open or closed

Under the greeting: Open today, 10 AM to 8 PM. On Tuesdays: Closed today, opens tomorrow at 10 AM.

DEV NOTE
Calculated on Indian time. Green dot when open, red when closed.

Desktop

Mobile

Search

Suggestions while typing

Typing a concern such as acne, pigmentation, wrinkles or hair fall shows matching treatments as pills.

DEV NOTE
Keyword map plus treatment name match, maximum 4 suggestions. Pressing send on a concern also lists matches.

Quick pills above the typing bar

- Main menu, Book and WhatsApp appear after the first tap
- Book hides during booking, cancel, reschedule and callback flows

Pill style

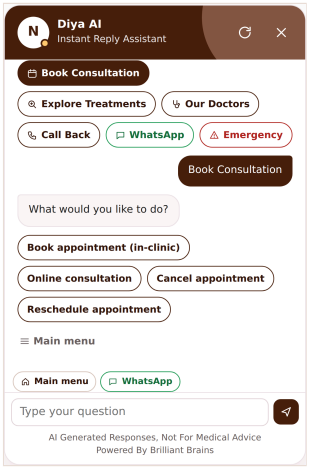

- Book Consultation is the only filled pill
- WhatsApp green, Emergency red, others outlined brown

How Book Consultation works

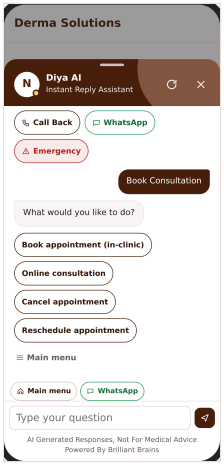

Part 1 of 4

1 Tap pill	2 Choose action	3 Details	4 Treatment and doctor	5 Date and time	6 Confirm
Book Consultation	**Book (in-clinic)**	Full name	5 categories	Week strip	Details check
	Online consultation	IN +91 contact	Doctor carousel	Month picker	**Request received**
	Cancel / Reschedule	Email	No preference	Time grid	Lead to CRM

LEAD DATA Name, contact, email, category, doctor, date and time go to the clinic CRM after confirmation

Desktop

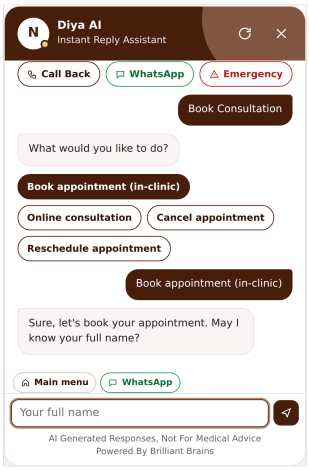

Mobile

Step 1

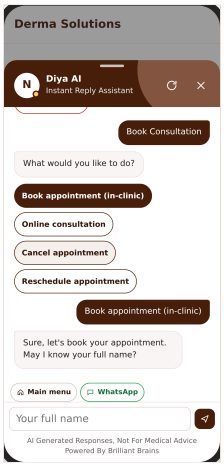

Choose what to do

Book appointment (in-clinic), Online consultation, Cancel appointment or Reschedule appointment.

> **DEV NOTE**
> Online consultation has its own section. Cancel and Reschedule are in part 4.

Desktop

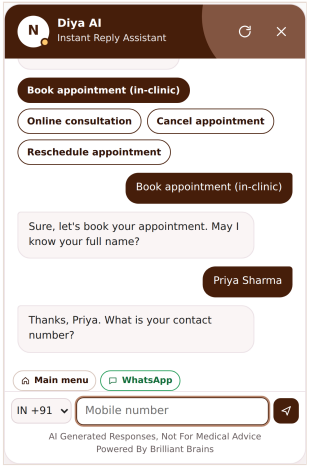

Mobile

Step 2

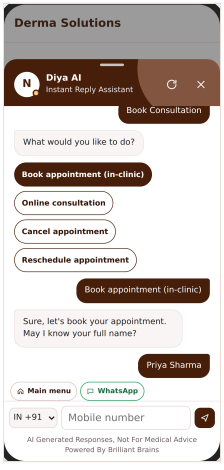

Name, asked like a chat

Diya asks one question at a time. The patient types in the bottom bar.

> **DEV NOTE**
> Minimum 2 characters, otherwise Diya asks again politely.

Desktop

Mobile

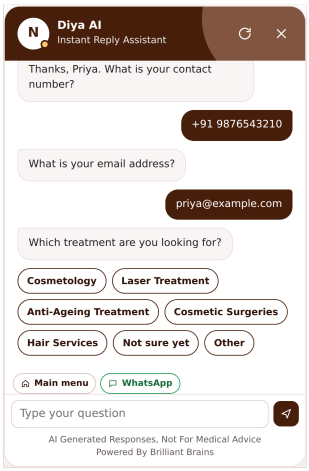

Step 3

Contact number

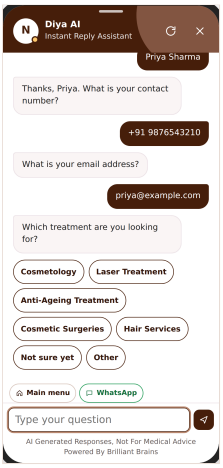

The country code sits inside the typing bar. IN +91 is the default and can be changed.

> **DEV NOTE**
> India: 10 digits starting with 6 to 9. Other countries: 6 to 12 digits.

Book appointment, treatment, doctor and date

Desktop

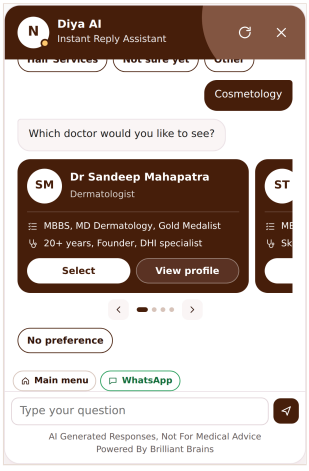

Mobile

Step 4

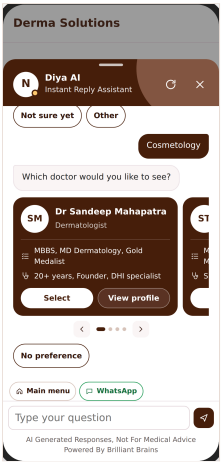

Email, then treatment category

After the email, the 5 website categories appear as pills, plus Not sure yet and Other.

> **DEV NOTE**
> Valid email required. Other asks for a short reason. Book for this from a treatment preselects its category.

Desktop

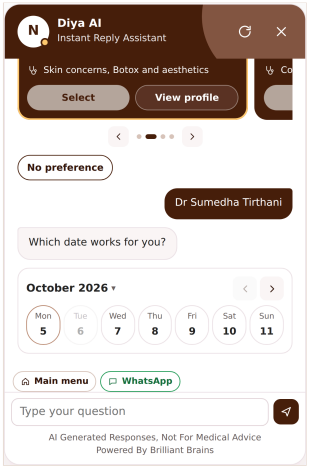

Mobile

Step 5

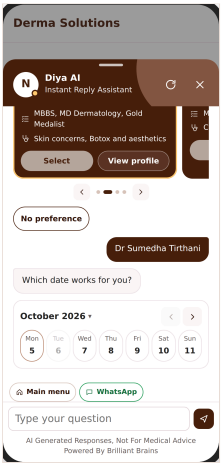

Choose a doctor

A swipeable carousel of 4 doctor cards with qualifications, plus No preference.

> **DEV NOTE**
> Select picks the doctor, View profile opens the doctor page. Skipped when booking from a doctor card.

Desktop

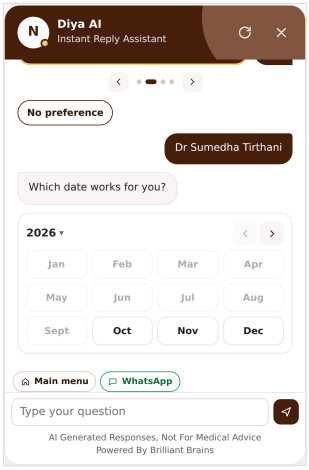

Mobile

Step 6

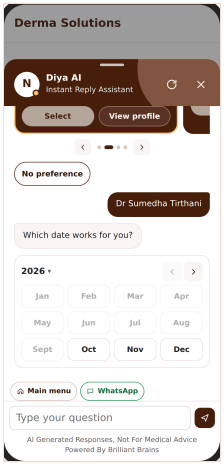

Pick a date on the week strip

7 day pills with day and date, arrows move week by week. Tuesday is greyed out.

> **DEV NOTE**
> After 7:30 PM the strip starts from tomorrow. The date can still be changed while times show.

Desktop

Mobile

Step 6b

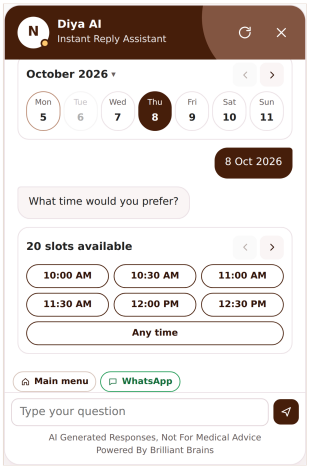

Jump to another month

Tapping the month name opens a 12 month grid with year arrows. Past months are greyed out.

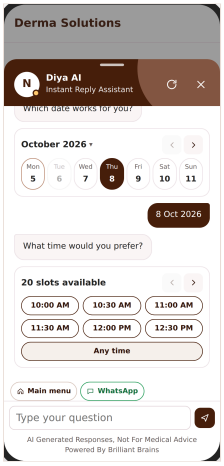

> **DEV NOTE**
> Choosing a month jumps the strip to its first week.

Book appointment, time and confirmation

Part 3 of 4

Desktop

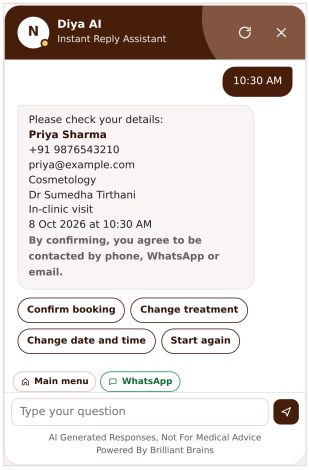

Mobile

Step 7

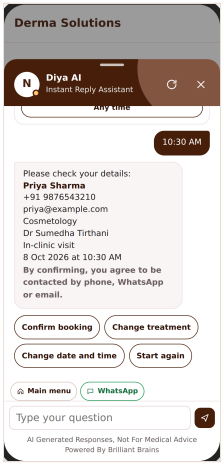

Choose a time

A card shows the number of free slots and a 3 column grid, 6 at a time, with arrows and Any time.

> **DEV NOTE**
> 30 minute slots from 10:00 AM to 7:30 PM. For today, past times are hidden.

Desktop

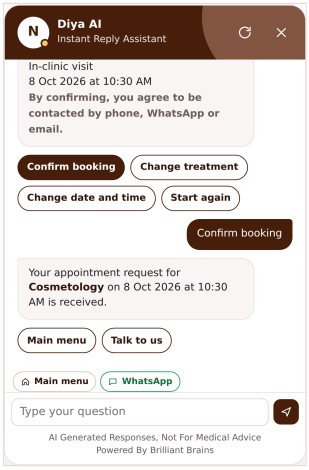

Mobile

Step 8

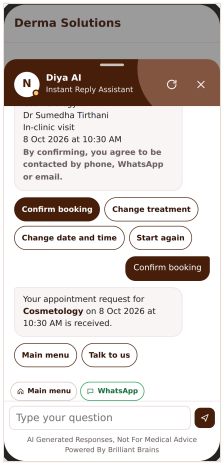

Check the details

A summary with consent text, plus Confirm booking, Change treatment, Change date and time, Start again.

> **DEV NOTE**
> Consent line: patient agrees to be contacted by phone, WhatsApp or email.

Desktop

Mobile

Step 9

Request received

Your appointment request for the chosen category on the chosen date and time is received.

DEV NOTE
Send the lead to CRM only on this step. Main menu and Talk to us follow.

Clinic team action

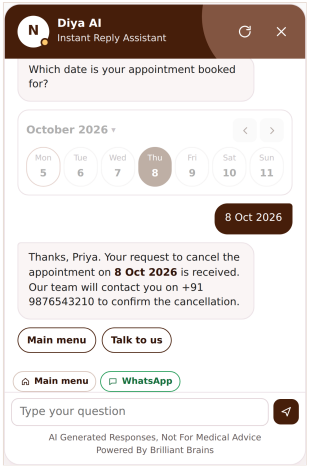

- Call the patient to confirm the slot and doctor
- Update status in CRM: Booked, Confirmed, No answer

Optional upgrade

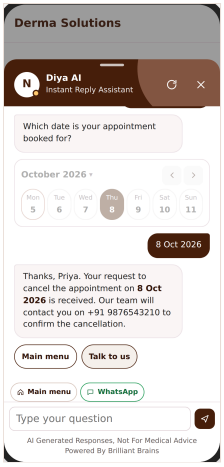

- WhatsApp OTP before confirming, see the last page
- Filters fake numbers and qualifies the lead

Cancel, reschedule, data and edge cases

Part 4 of 4

Desktop

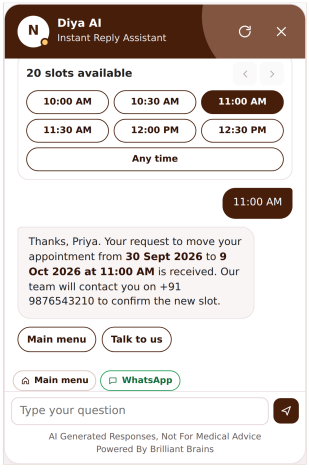

Mobile

Cancel

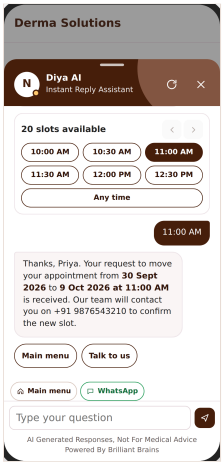

Name, number and booked date

The week strip lets the patient go back up to 8 weeks, so a past booked date can be chosen. Diya confirms the team will call to confirm the cancellation.

DEV NOTE
Past dates allowed for the booked date only. Tuesdays stay disabled. Tag lead type Cancel in CRM.

Desktop

Mobile

Reschedule

Old date, then new date and time

Name, number, the booked date (past allowed), then a new date and a new time. Confirmation shows both: from the old date to the new date and time.

DEV NOTE
New date is future only and can be changed while times show. Tag lead type Reschedule with old and new slot in CRM.

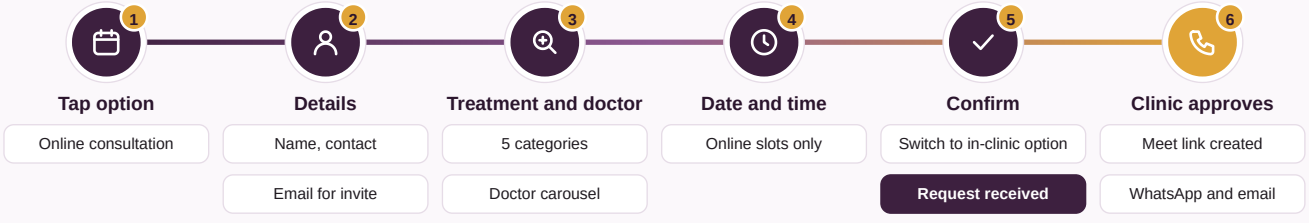

Lead data captured

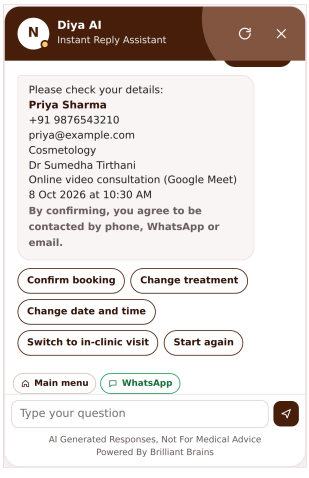

Field	Required	Rule	Example
Name	Yes	Minimum 2 characters	Priya Sharma
Contact number	Yes	IN 10 digits from 6 to 9; others 6 to 12	+91 9876543210
Email	Booking only	Valid email format	priya@example.com
Category	Booking only	5 categories, Not sure yet or Other	Cosmetology
Reason	If Other	Minimum 3 characters	Dark circles
Doctor	Booking only	4 doctors or No preference	Dr Sumedha Tirthani
Date	Yes	Today or later, not Tuesday	8 Oct 2026
Time	Booking only	10:00 AM to 7:30 PM or Any time	10:30 AM
Appointment type	Booking only	In-clinic or Online	Online
Meet link	Online only	Created after staff approve	meet.google.com/abc-defg-hij
Booked date	Cancel and Reschedule	Past or future, not Tuesday	30 Sept 2026
New date and time	Reschedule only	Future date, 10:00 AM to 7:30 PM	9 Oct 2026, 11:00 AM
Request type	Auto	Book, Cancel, Reschedule	Book
Source	Auto	Page, device, time stamp	HydraFacial page, mobile

What if

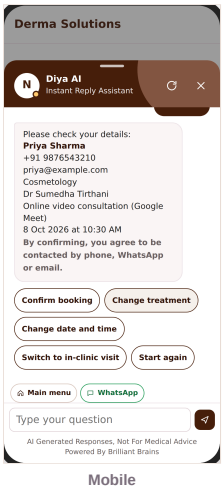

Situation	What Diya does
Wrong number or email	Asks again politely, nothing is lost
Wrong category chosen	Tap another category, or Change treatment at the details check
Wants a different date	Tap a new date while times show; slots refresh
Wants a date months ahead	Tap the month name and pick from the month grid
Booked date was weeks ago	Week strip and month picker go back up to 8 weeks
Taps another main pill	Current flow stops and the new one starts
Closes the chat	Conversation stays as it was when reopened

Online consultation (Google Meet)

Desktop

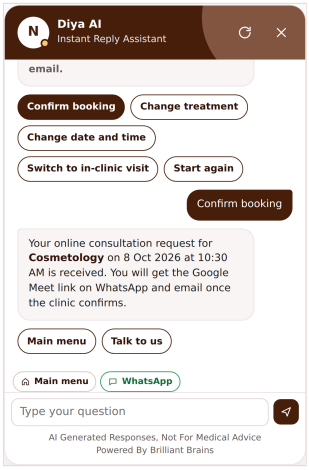

Mobile

Step 1

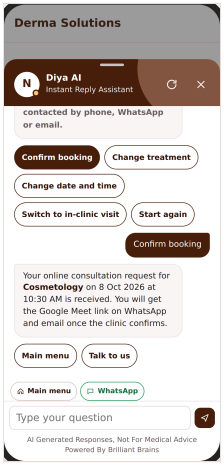

Same steps, online slots

Name, contact, email, category, doctor, date and time, asked one by one. The details check shows Online video consultation and offers Switch to in-clinic visit.

> **DEV NOTE**
> Typing online consultation, video call or consult from home opens this flow directly. Slots come from each doctor online availability.

Desktop

Mobile

Step 2

Request received

Your online consultation request is received. The Google Meet link arrives on WhatsApp and email once the clinic confirms.

DEV NOTE
Tag appointment type Online in CRM. No link is created until staff approve.

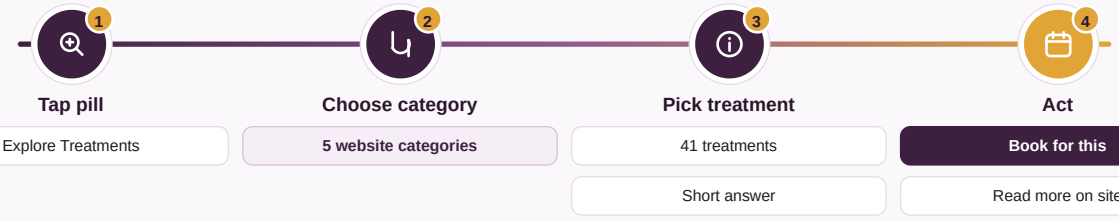

How the Meet link is created

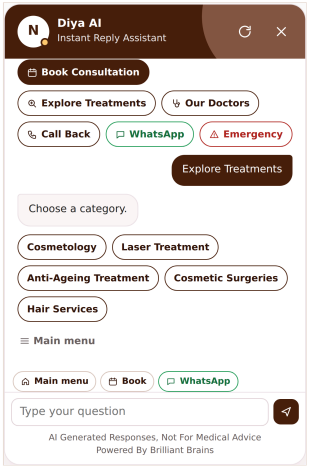

- Staff approve the request in the CRM
- Backend creates a Google Calendar event with a Meet link on the clinic Google Workspace account
- Doctor and patient invited; link sent on WhatsApp (Interakt) and email
- Reminders 24 hours and 1 hour before
- Reschedule updates the same event; cancel deletes it

Placeholders

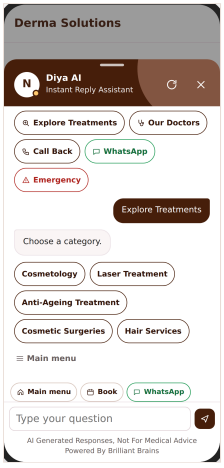

- Payment before the link (for example a Razorpay link): not in Phase 1
- Online slots set per doctor in Doctors Availability
- Google Workspace account recommended over personal Gmail

How Explore Treatments works

Desktop

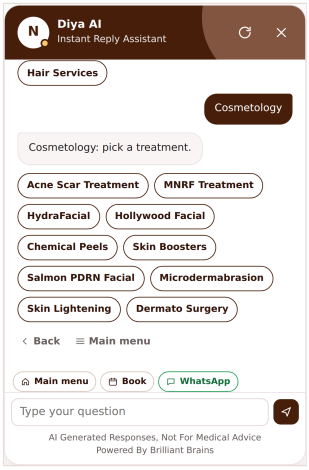

Mobile

Step 1

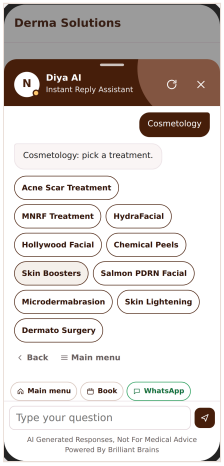

Choose a category

Cosmetology, Laser Treatment, Anti-Ageing Treatment, Cosmetic Surgeries, Hair Services, exactly as on the website.

DEV NOTE
Same structure as the site menu, so patients see one familiar layout.

Desktop

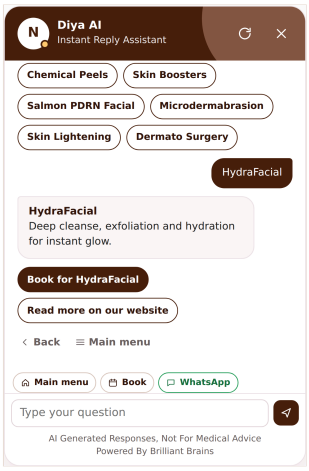

Mobile

Step 2

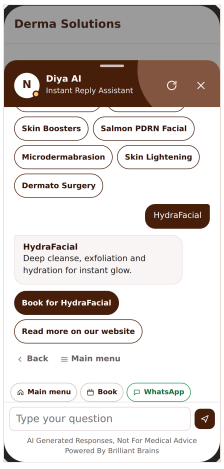

Pick a treatment

Example: Cosmetology lists its 10 treatments as pills.

> **DEV NOTE**
> Counts: Cosmetology 10, Laser 6, Anti-Ageing 11, Cosmetic Surgeries 10, Hair Services 4.

Desktop

Mobile

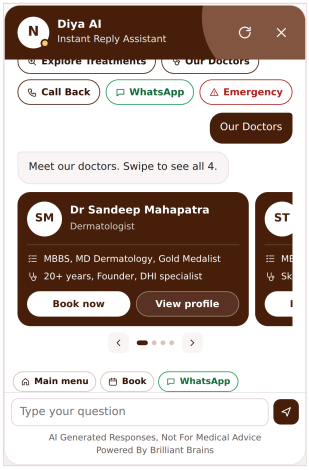

Step 3

Short answer and next step

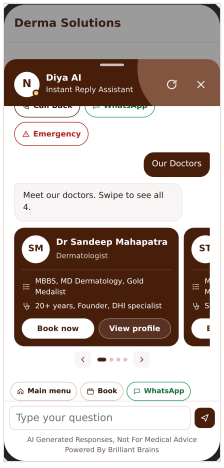

One line about the treatment with Book for this and Read more on our website.

> **DEV NOTE**
> Book for this opens booking with the category preselected. Read more links to the treatment page on dermasolutions.co.in.

Our Doctors

Desktop

Mobile

Carousel

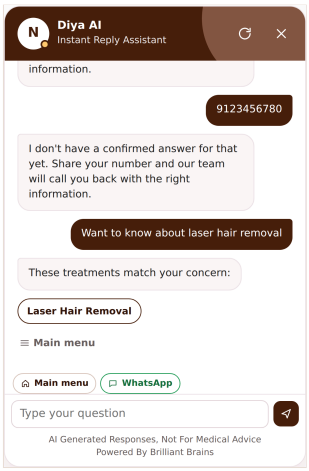

Meet the doctors

Swipeable brown cards for the 4 doctors with qualifications and focus area, arrows and dots below.

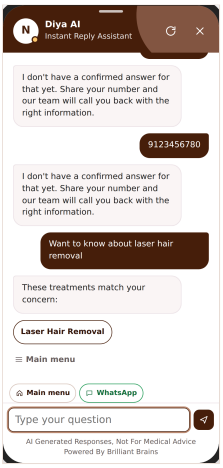

> **DEV NOTE**
> Book now starts booking with that doctor. View profile opens the doctor page. Initials are replaced by real photos when available.

Doctor	Specialty	Qualifications
Dr Sandeep Mahapatra	Dermatologist, Founder	MBBS, MD Dermatology, Gold Medalist; DHI specialist; Allergan certified
Dr Sumedha Tirthani	Dermatologist	MBBS, MD Dermatology, Gold Medalist
Dr Thyagaraj	Plastic Surgeon	MBBS, MS General Surgery, MCh Plastic Surgery
Dr Chandhana Vishal N	Plastic Surgeon	MBBS, MCh Plastic Surgery

Call Back

Desktop

Mobile

Step by step

Name, number, reason

Same flow from every callback button and for typed questions Diya cannot answer.

DEV NOTE

For an unanswered typed question the reason step is skipped, because the question is the reason.

WhatsApp

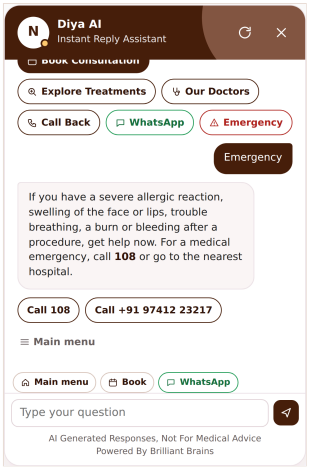

What happens

- Tapping WhatsApp opens WhatsApp directly, no extra step
- Prefilled: Hi, I would like to know about a treatment at Derma Solutions.
- Number: +91 97412 23217

Dev note

- Link format: wa.me/919741223217 with text parameter
- Opens app on mobile, WhatsApp Web on desktop
- Track clicks as WhatsApp leads in analytics

Emergency

Desktop

Mobile

One message

Get help fast

Warning signs: severe allergic reaction, swelling of face or lips, trouble breathing, a burn or bleeding after a procedure. Call 108 first, the clinic second.

DEV NOTE

Never route emergencies to a form.

Safety rules for the AI

- Clinical questions: suggest a consultation with a doctor
- No diagnosis, no medicine doses, no promised results
- Every AI answer marked AI generated

Clinic hours in replies

- Monday and Wednesday to Sunday, 10 AM to 8 PM
- Tuesday closed; after hours callback next working slot

Design specification: colors

Brown #481E0B Header, filled pill, cards	**Brown dark** #33150A Hover, button text	**Light brown** #B98A72 Arc, typing dots, focus	**Cream tint** #F6F0EC Bot bubbles, hover fill
Honey #FFCC70 Online dot, selected card	**WhatsApp green** #1F9D55 WhatsApp pill	**Alert red** #B3261E Emergency pill, closed status	**Ink** #262626 Text

Approved by

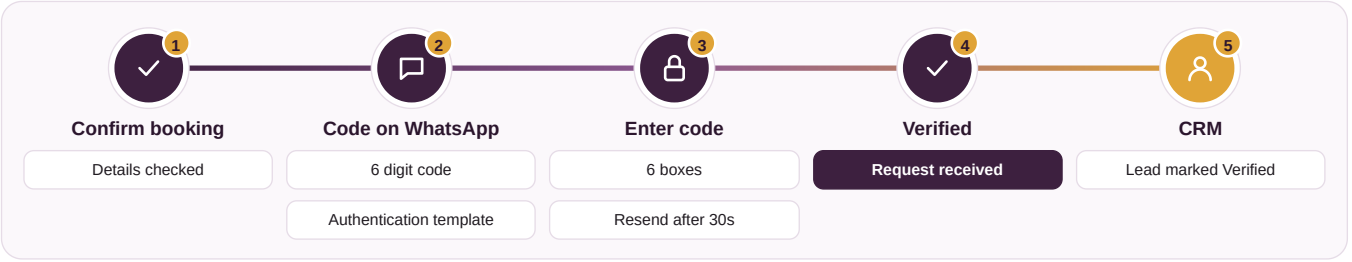

- Name: _____
- Designation: _____
- Date: _____

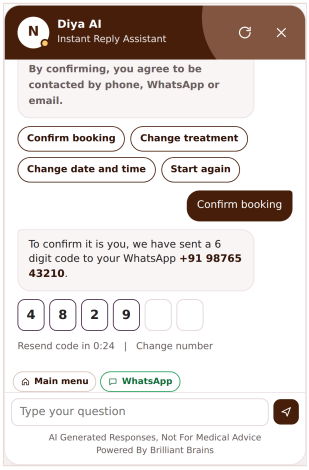

Prepared by

- Brilliant Brains
- brilliantbrains.ai
- Website chatbot, Diya AI

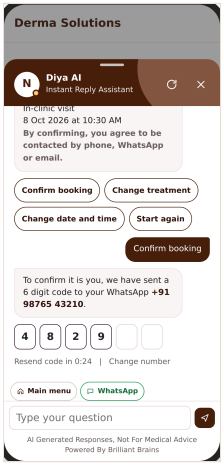

OPTIONAL WhatsApp OTP to qualify the lead

Added as the last step of Book appointment, after Confirm booking. It confirms the number is real and on WhatsApp before the lead reaches the clinic.

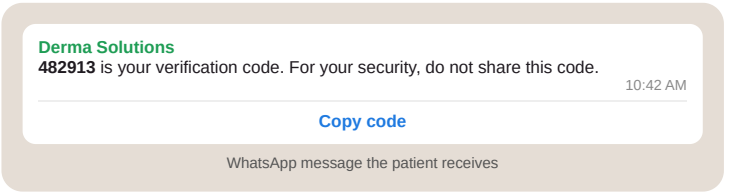

Desktop

Mobile

WhatsApp message the patient receives

Why add it

- Filters fake and wrong numbers
- Team calls only real, reachable patients
- Higher quality leads for ad reporting

Trade-offs

- One extra step, a few patients may drop
- Each code is a paid WhatsApp message on Interakt, about Rs 0.115 to Rs 0.30
- Needs an approved authentication template

Rules

Rule	Value
Code	6 digits, valid for 10 minutes
Resend	After 30 seconds, maximum 3 attempts
Not verified	Save as Unverified lead, team still calls; never lose the lead
Security	Code created and checked on the server, never stored in the browser
Cost	About Rs 0.115 to Rs 0.30 per OTP through Interakt
