WEBSITE CHATBOT

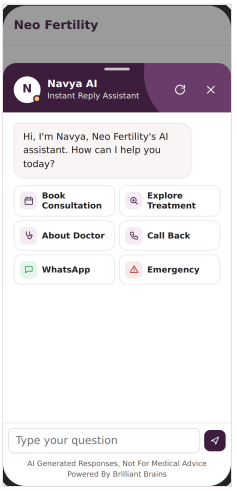

Navya AI for Neo Fertility

A guided chat assistant for neofertility.co.in. Patients book, ask and reach the clinic in a few taps, and every conversation ends in a lead the team can act on.

Item	Detail
Brand color	Deep plum #3D203F with honey #E0A437 highlights
Desktop	Floating panel, 380 x 580, bottom right
Mobile	Bottom sheet, 88% height, full height while typing
Header	Navya AI, Instant Reply Assistant, refresh, close
Footer	AI Generated Responses, Not For Medical Advice. Powered By Brilliant Brains

Desktop

Mobile

The 6 main buttons

Button	What it does	Ends in
Book Consultation	Book in-clinic, online consultation, cancel or reschedule	Appointment request
Explore Treatment	Fertility and gynecology information	Book for this treatment
About Doctor	Dr. Payal's profile and highlights	Book with Dr. Payal
Call Back	Name, number and reason	Callback request
WhatsApp	Opens WhatsApp with a ready message	WhatsApp chat
Emergency	Warning signs and 108 guidance	Call 108 or the clinic

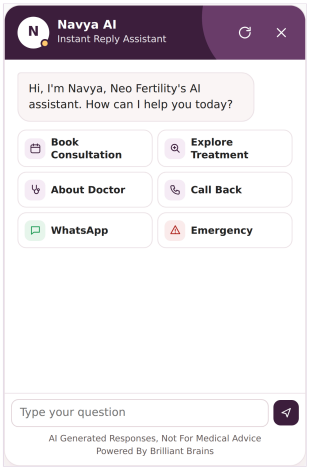

1 Arrive	2 Choose	3 Guided steps	4 Capture	5 Clinic team
Any page	**6 main buttons**	One question	Name and contact	**Lead to CRM**
Launcher bubble	**Typed question**	at a time	Need and date	Calls to confirm

SAFETY Clinical questions go to Dr. Payal. Emergencies go to 108. Answers are marked as AI generated.

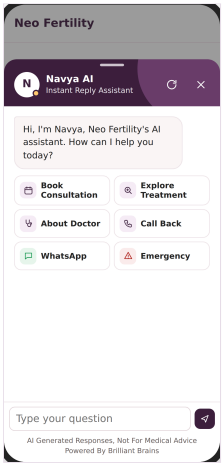

How Book Consultation works

1 Tap button	2 Choose action	3 Details	4 Treatment	5 Date and time	6 Confirm
Main menu tile	**Book (in-clinic)**	Full name	Treatment buttons	Calendar	Details check
Desktop and mobile	**Online consultation**	IN +91 contact	Reason if Other	9:30 AM to 6 PM	**Request received**
	Cancel / Reschedule	Email	Change anytime	Any time	Lead to CRM

LEAD DATA Name, contact, email, treatment, reason, date and time go to the clinic CRM after confirmation

Desktop

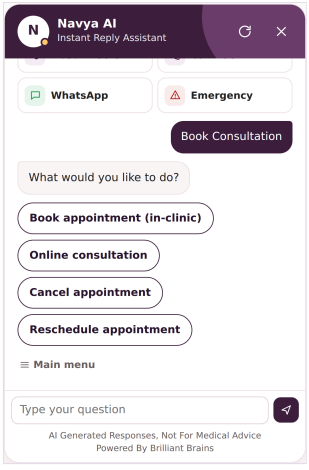

Mobile

Step 1

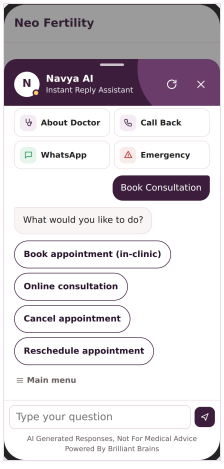

Patient opens the chat

Navya greets the patient with six main buttons. Book Consultation sits first, top left.

> **DEV NOTE**
> Tiles in a 2 column grid. Every option stays visible and clickable after a choice.

Desktop

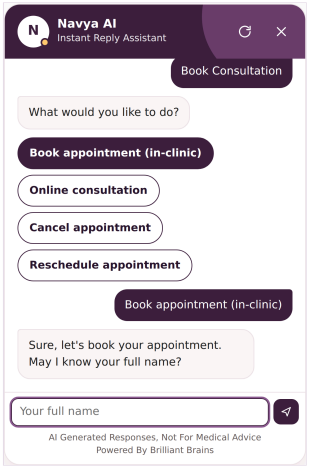

Mobile

Step 2

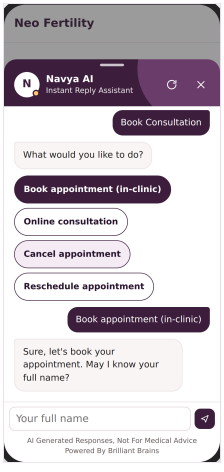

Choose what to do

Book appointment (in-clinic), Online consultation, Cancel appointment or Reschedule appointment.

> **DEV NOTE**
> Online consultation has its own section. Cancel and Reschedule are in part 4.

Desktop

Mobile

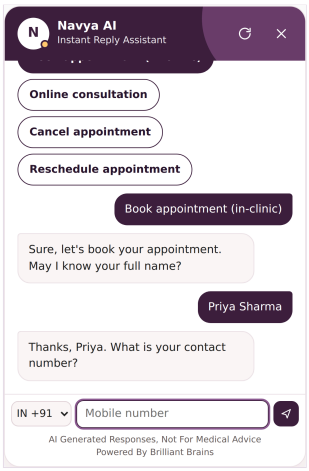

Step 3

Name, asked like a chat

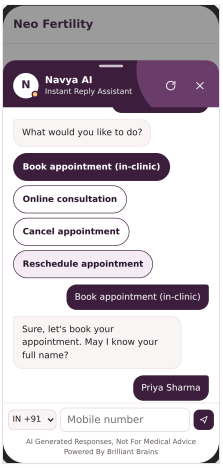

Navya asks one question at a time. The patient types in the bottom bar.

> **DEV NOTE**
> Minimum 2 characters, otherwise Navya asks again politely.

Book appointment, details

Desktop

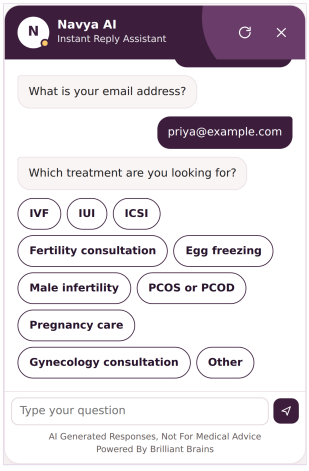

Mobile

Step 4

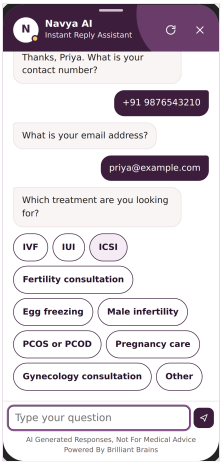

Contact number

The country code shows inside the typing bar. IN +91 is the default and the patient can tap it to change.

> **DEV NOTE**
> India: 10 digits starting with 6 to 9. Other countries: 6 to 12 digits. Saved as code plus number.

Desktop

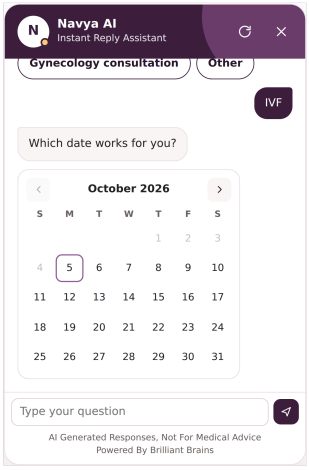

Mobile

Step 5

Email, then treatment

After the email, treatments appear as buttons. Choosing Other asks for a short reason.

> **DEV NOTE**
> Valid email format required. Treatment buttons stay live, so a wrong pick can be changed by tapping another.

Desktop

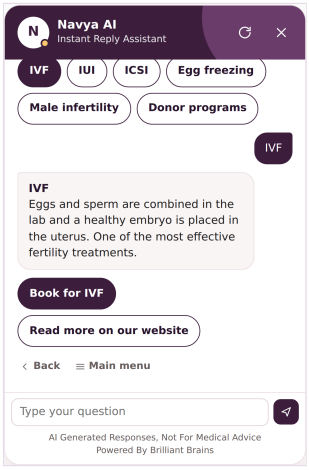

Mobile

Step 6

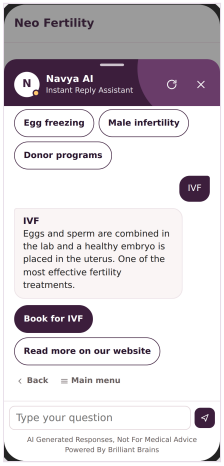

Pick a date on the calendar

A calendar opens inside the chat. Past dates are greyed out and arrows switch months.

> **DEV NOTE**
> After 6 PM the calendar starts from tomorrow. The date can still be changed while times are showing.

Desktop

Mobile

Tip

Treatment already chosen

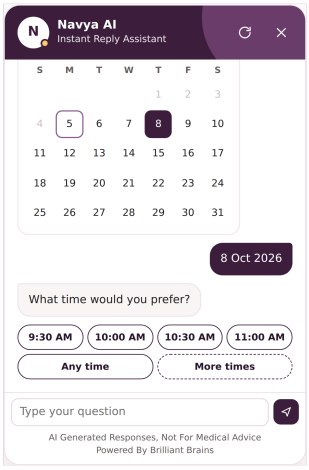

When the patient taps Book for IVF in Explore Treatment, the treatment question is skipped.

DEV NOTE

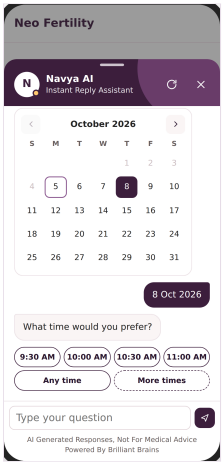

Pass the treatment as a preset to the booking flow.

Book appointment, time and confirmation

Part 3 of 4

Desktop

Mobile

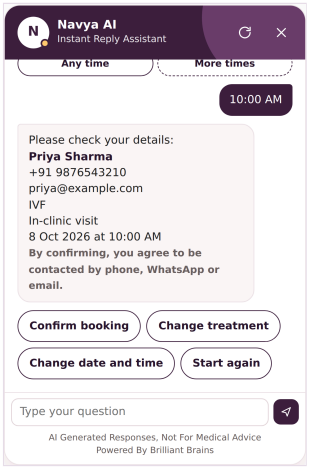

Step 7

Choose a time

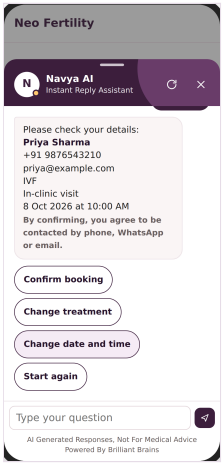

The first 4 slots show with Any time and More times. More times shows the rest up to 6 PM.

DEV NOTE

30 minute slots from 9:30 AM. For today, past times are hidden.

Desktop

Mobile

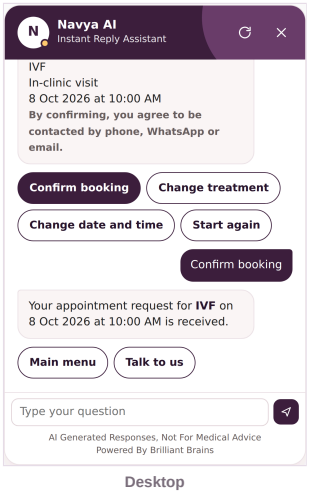

Step 8

Check the details

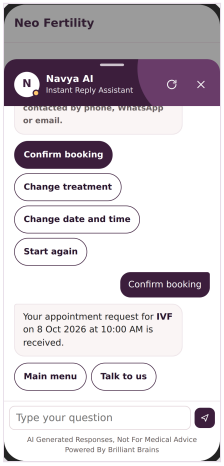

Navya shows a summary with consent text, plus Confirm booking, Change treatment, Change date and time, Start again.

DEV NOTE

Consent line: patient agrees to be contacted by phone, WhatsApp or email.

Desktop

Mobile

Step 9

Request received

Your appointment request for IVF on the chosen date and time is received. For Other, the reason replaces the word Other.

> **DEV NOTE**
> Send the lead to CRM on this step only. Main menu and Talk to us follow.

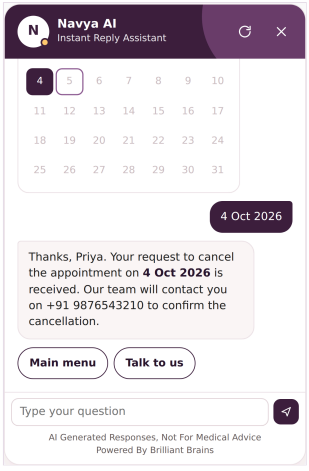

Clinic team action

- Call the patient to confirm the slot
- Update status in CRM: Booked, Confirmed, No answer

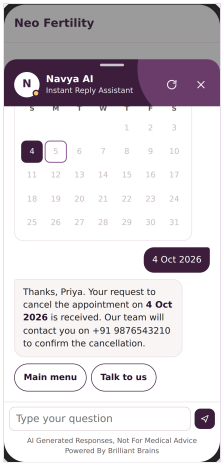

Optional upgrade

- WhatsApp OTP before confirming, see the last page
- Filters fake numbers and qualifies the lead

Cancel, reschedule, data and edge cases

Desktop

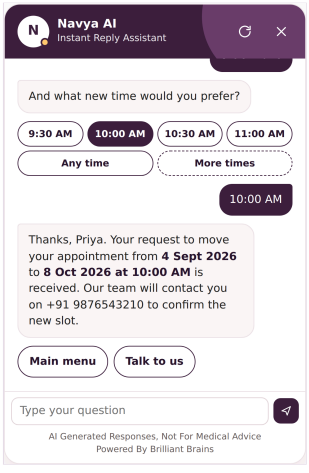

Mobile

Cancel

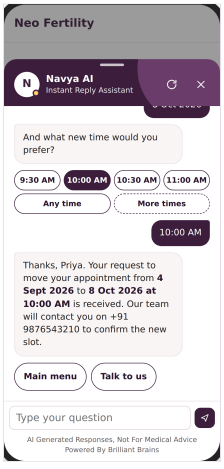

Name, number and booked date

The calendar goes back up to 2 months, so a past booked date can be chosen. Navya confirms the team will call to confirm the cancellation.

> **DEV NOTE**
> Past dates allowed only for the booked date. Tag lead type Cancel in CRM.

Desktop

Mobile

Reschedule

Old date, then new date and time

Name, number, the booked date, then a new date and time. The confirmation shows both: from the old date to the new date and time.

> **DEV NOTE**
> New date is future only. Tag lead type Reschedule with old and new slot in CRM.

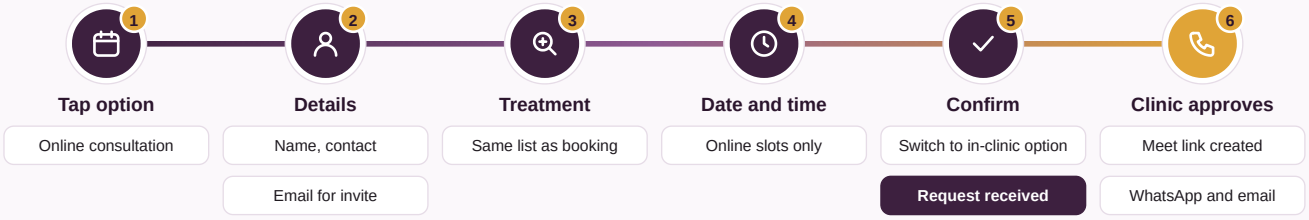

Lead data captured

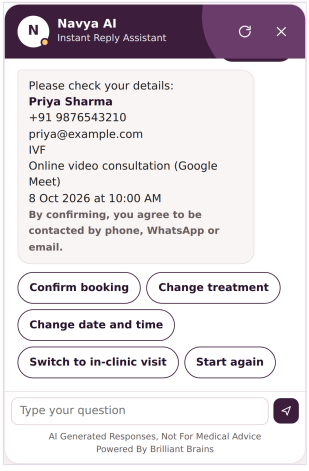

Field	Required	Rule	Example
Name	Yes	Minimum 2 characters	Priya Sharma
Contact number	Yes	IN 10 digits from 6 to 9; others 6 to 12	+91 9876543210
Email	Booking only	Valid email format	priya@example.com
Treatment	Booking only	One of 10 options	IVF
Reason	If Other	Minimum 3 characters	Irregular periods
Date	Yes	Today or later	6 Oct 2026
Time	Booking only	9:30 AM to 6 PM or Any time	10:00 AM
Appointment type	Booking only	In-clinic or Online	Online
Booked date	Cancel and Reschedule	Past or future	2 Sept 2026
New date and time	Reschedule only	Future date and slot	8 Oct 2026, 10:30 AM
Meet link	Online only	Created after staff approve	meet.google.com/abc-defg-hij
Request type	Auto	Book, Online, Cancel, Reschedule	Online
Source	Auto	Page, device, time stamp	IVF page, mobile

What if

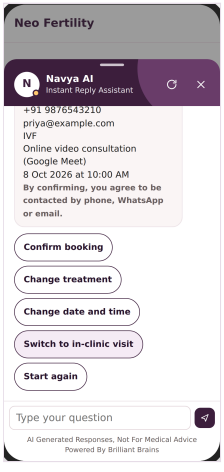

Situation	What Navya does
Wrong number or email	Asks again politely, nothing is lost
Wrong treatment chosen	Tap another treatment, or Change treatment at the details check
Wants a different date	Tap a new date while times show; slots refresh
Booking for today	Past slots hidden; after 6 PM the calendar starts tomorrow
Taps another main button	Current flow stops and the new one starts
Closes the chat	Conversation stays as it was when reopened

Online consultation (Google Meet)

Desktop

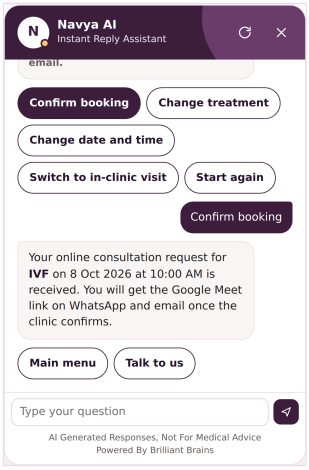

Mobile

Step 1

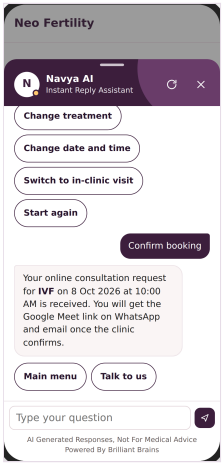

Same steps, online slots

Name, contact, email, treatment, date and time, asked one by one. The details check shows Online video consultation and offers Switch to in-clinic visit.

> **DEV NOTE**
> Typing online consultation, video call or consult from home opens this flow directly. Slots come from the doctor online availability.

Desktop

Mobile

Step 2

Request received

Your online consultation request is received. The Google Meet link arrives on WhatsApp and email once the clinic confirms.

DEV NOTE
Tag appointment type Online in CRM. No link is created until staff approve.

How the Meet link is created

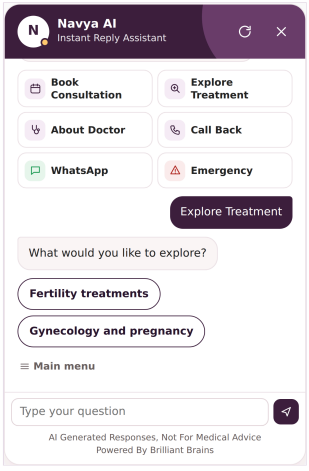

- Staff approve the request in the CRM
- Backend creates a Google Calendar event with a Meet link on the clinic Google Workspace account
- Doctor and patient invited; link sent on WhatsApp (Interakt) and email
- Reminders 24 hours and 1 hour before
- Reschedule updates the same event; cancel deletes it

Placeholders

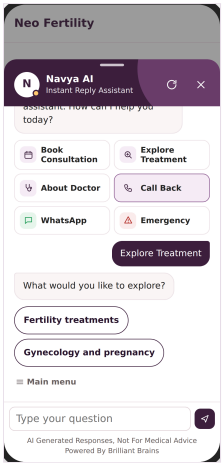

- Payment before the link (for example a Razorpay link): not in Phase 1
- Online slots set per doctor in Doctors Availability
- Google Workspace account recommended over personal Gmail

How Explore Treatment works

1 Tap button	2 Choose area	3 Pick treatment	4 Act
Main menu tile	**Fertility**	12 topics	**Book for this**
	Gynecology and pregnancy	Short answer	Read more on site

Desktop

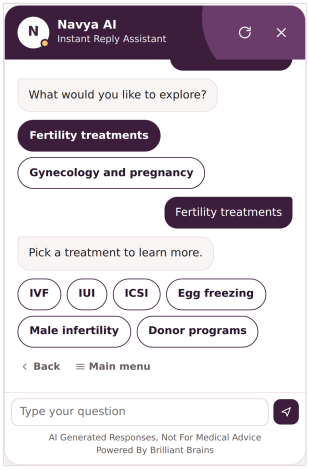

Mobile

Step 1

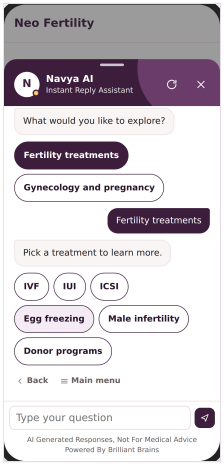

Choose an area

Fertility treatments or Gynecology and pregnancy.

DEV NOTE
Two pills, both visible after selection.

Desktop

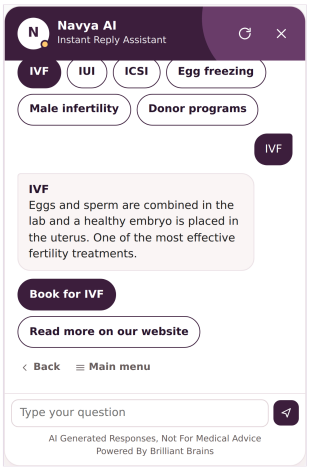

Mobile

Step 2

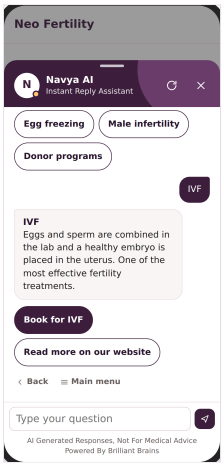

Pick a treatment

Fertility: IVF, IUI, ICSI, Egg freezing, Male infertility, Donor programs.

> **DEV NOTE**
> Gynecology: PCOS, PCOD, Pregnancy care, Natural delivery, Family planning, Pelvic scan.

Desktop

Mobile

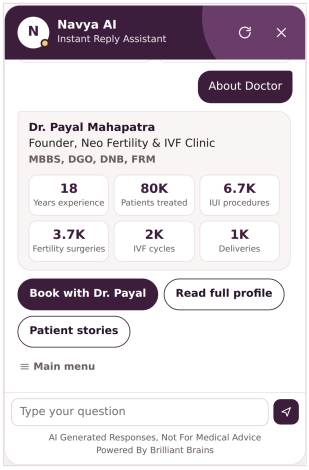

Step 3

Short answer and next step

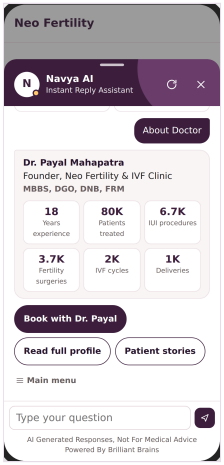

Two lines about the treatment with Book for this treatment and Read more on our website.

> **DEV NOTE**
> Book for IVF opens booking with IVF preselected. Read more links to the matching page on neofertility.co.in.

About Doctor

Desktop

Mobile

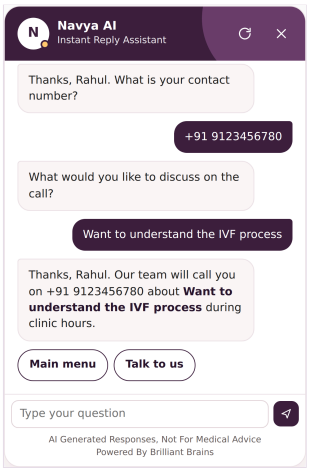

One card

Dr. Payal at a glance

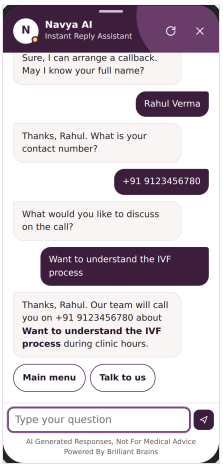

Name, Founder of Neo Fertility & IVF Clinic, MBBS, DGO, DNB, FRM, and six highlights: 18 years, 80K patients, 6.7K IUI, 3.7K surgeries, 2K IVF cycles, 1K deliveries.

> **DEV NOTE**
> Shown as a single message, no step by step, so it feels natural. Then Book with Dr. Payal, Read full profile, Patient stories.

Call Back

Desktop

Mobile

Step by step

Name, number, reason

Same flow from every callback button: main menu, IVF cost, reports and typed questions.

DEV NOTE

For a typed question the bot cannot answer, the reason step is skipped because the question is the reason.

Field	Rule
Name	Minimum 2 characters
Contact number	Country code plus number, same rules as booking
Reason	Minimum 3 characters
Confirmation	Team will call during clinic hours, 09:30 to 18:30

WhatsApp

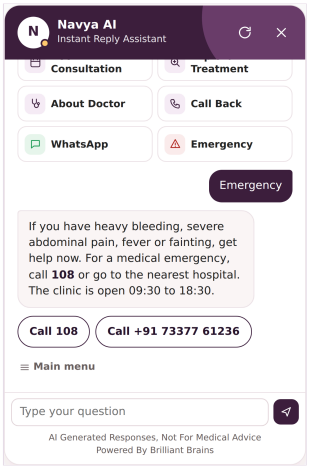

What happens

- Tapping WhatsApp opens WhatsApp directly, no extra step
- Message is prefilled: Hi, I would like to book an appointment at Neo Fertility Clinic.
- Number: +91 73377 61236

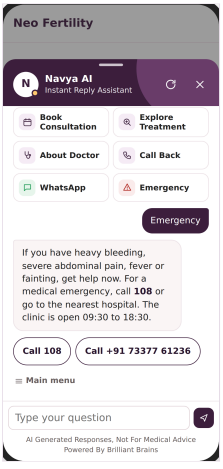

Dev note

- Link format: wa.me/917337761236 with text parameter
- Opens app on mobile, WhatsApp Web on desktop
- Track clicks as WhatsApp leads in analytics

Emergency

Desktop

Mobile

One message

Get help fast

Lists warning signs: heavy bleeding, severe abdominal pain, fever or fainting. Call 108 comes first, the clinic number second.

DEV NOTE

The clinic is not open 24x7, so 108 leads. Never route emergencies to a form.

Safety rules for the AI

- Clinical questions: suggest a consultation with Dr. Payal
- No diagnosis, no medicine doses
- Every AI answer marked AI generated

Clinic hours in replies

- Monday to Sunday, 09:30 to 18:30
- After hours: callback next working slot

- Website chatbot, Navya AI

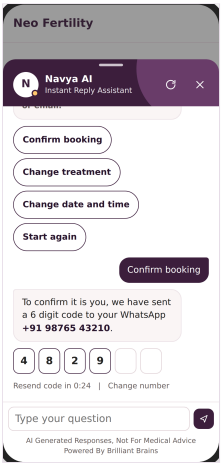

OPTIONAL WhatsApp OTP to qualify the lead

Added as the last step of Book appointment, after Confirm booking. It confirms the number is real and on WhatsApp before the lead reaches the clinic.

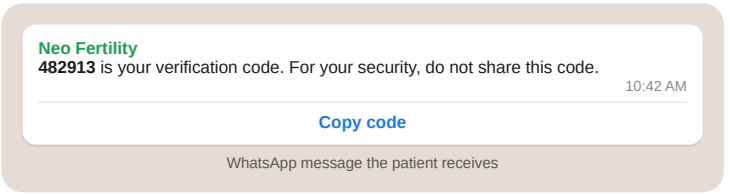

Desktop

Mobile

WhatsApp message the patient receives

Why add it

- Filters fake and wrong numbers
- Team calls only real, reachable patients
- Confirms reminders will reach WhatsApp
- Higher quality leads for ad reporting

Trade-offs

- One extra step, a few patients may drop
- Each code is a paid WhatsApp message on Interakt, about Rs 0.115 to Rs 0.30
- Needs an approved authentication template

Rules

Rule	Value
Code	6 digits, valid for 10 minutes
Resend	After 30 seconds, maximum 3 attempts
Not verified	Save as Unverified lead, team still calls; never lose the lead
Change number	Link below the code boxes returns to the contact step
Security	Code created and checked on the server, never stored in the browser
Cost	About Rs 0.115 to Rs 0.30 per OTP through Interakt
