The 7 main buttons

Button	What it does	Ends in
Book Consultation	Book in-clinic, online consultation, cancel or reschedule	Appointment request
Explore Treatments	Hair transplant, hair fall, scalp, beard and eyebrow information	Book for this treatment
About Doctors	Doctor list, then the chosen doctor's profile and highlights	Book with the doctor
International Patients	How treatment is planned before the patient travels	Callback or WhatsApp photos
Call Back	Name, number and reason	Callback request
WhatsApp	Opens WhatsApp with a ready message	WhatsApp chat
Emergency	Warning signs and 108 guidance	Call 108 or the clinic

1 Arrive	2 Choose	3 Guided steps	4 Capture	5 Clinic team
Any page	**7 main buttons**	One question	Name and contact	**Lead to CRM**
Launcher bubble	**Typed question**	at a time	Need and date	Calls to confirm

SAFETY Clinical questions go to the doctor. Emergencies go to 108. Answers are marked as AI generated.

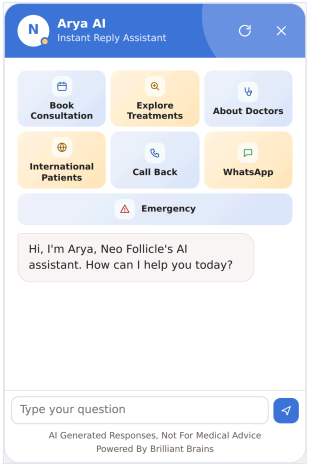

Typed questions

Patient types about	Arya opens
Booking, appointment, consultation, slot	Book Consultation
Online, video call, consult from home, Google Meet	Online consultation (new)
Cost, price, fee, package	Cost guide by hair loss pattern, Rs 60 to Rs 100 per graft, then exact quote or AI Hair Analysis
Results, before and after, gallery, photos	Results gallery links
Timing, address, location, directions	Clinic address, hours and Google Maps
Call, WhatsApp, contact, number	Call, WhatsApp or callback
Anything else	Callback flow, with the question saved as the reason

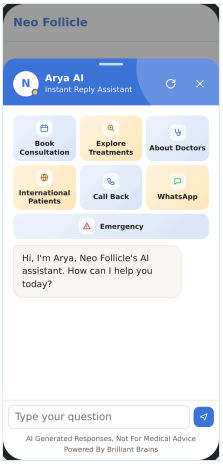

How Book Consultation works

1 Tap button	2 Choose action	3 Details	4 Treatment	5 Date and time	6 Confirm
Main menu card	**Book (in-clinic)**	Full name	Treatment buttons	Calendar	Details check
	Online consultation	IN +91 contact	Reason if Other	10 AM to 6:30 PM	**Request received**
	Cancel / Reschedule	Email		Any time	Lead to CRM

LEAD DATA Name, contact, email, treatment, reason, date and time go to the clinic CRM after confirmation

Desktop

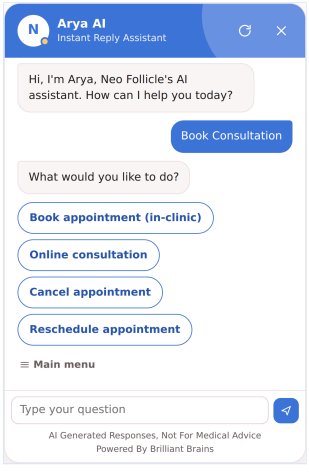

Mobile

Step 1

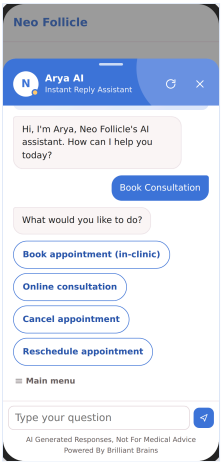

Patient opens the chat

Arya greets the patient and shows seven main buttons. Book Consultation sits first, top left.

> **DEV NOTE**
> Cards in a 3 column grid, Emergency full width below. Every option stays visible and clickable after a choice.

Desktop

Mobile

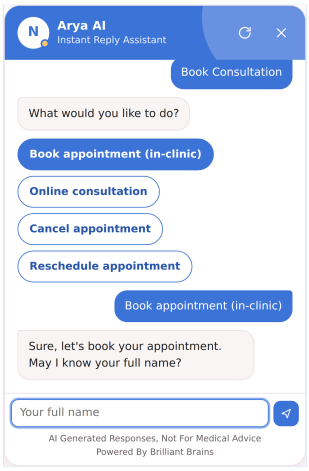

Step 2

Choose what to do

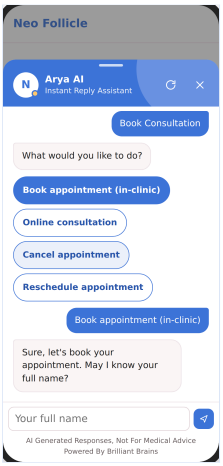

Book appointment (in-clinic), Online consultation, Cancel appointment or Reschedule appointment.

> **DEV NOTE**
> Online consultation has its own section. Cancel and Reschedule are in part 4.

Book appointment, details

Desktop

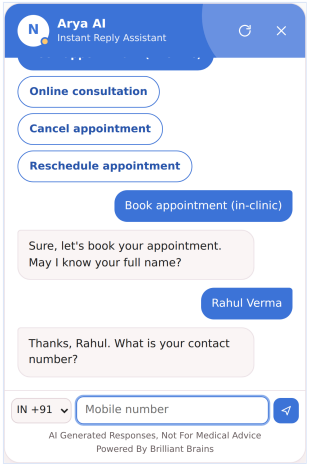

Mobile

Step 3

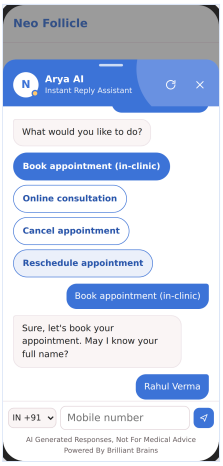

Name, asked like a chat

Arya asks one question at a time. The patient types in the bottom bar.

> **DEV NOTE**
> Minimum 2 characters, otherwise Arya asks again politely.

Desktop

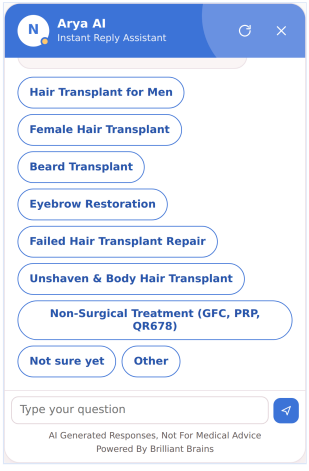

Mobile

Step 4

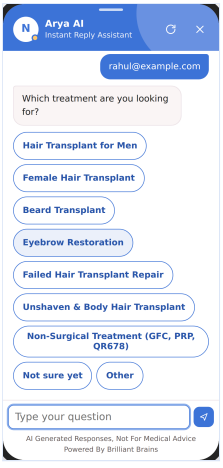

Contact number

The country code shows inside the typing bar. IN +91 is the default and can be changed.

> **DEV NOTE**
> India: 10 digits starting with 6 to 9. Other countries: 6 to 12 digits. 15 country codes including GCC, US, UK, Canada, Australia, Singapore.

Desktop

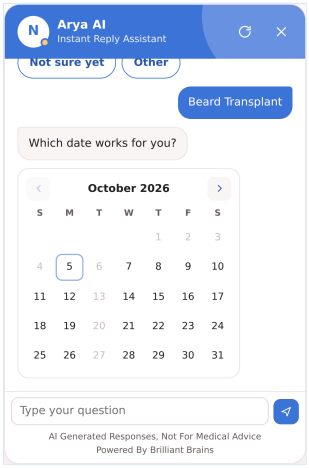

Mobile

Step 5

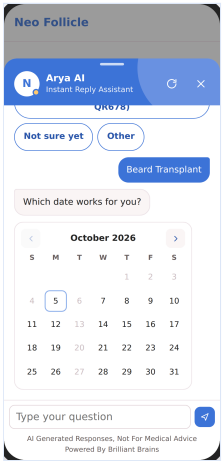

Email, then treatment

After the email, treatments appear as buttons. Choosing Other asks for a short reason.

> **DEV NOTE**
> Valid email required. Treatment buttons stay live, so a wrong pick can be changed by tapping another. Book for this from Explore skips this step.

Desktop

Mobile

Step 6

Pick a date on the calendar

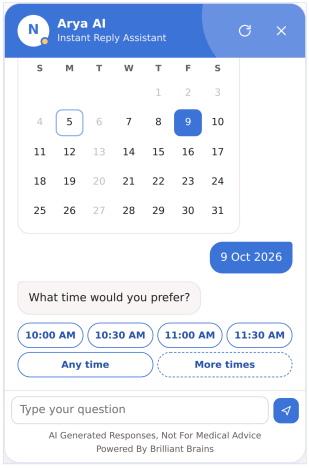

A calendar opens inside the chat. Past dates and Tuesdays are greyed out. Arrows switch months.

DEV NOTE

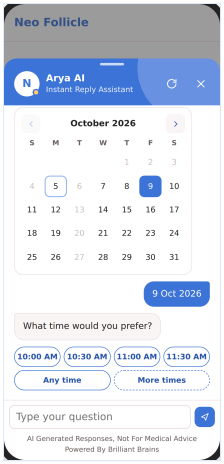

After 6:30 PM the calendar starts from tomorrow. The date can still be changed while times show.

Book appointment, time and confirmation

Part 3 of 4

Desktop

Mobile

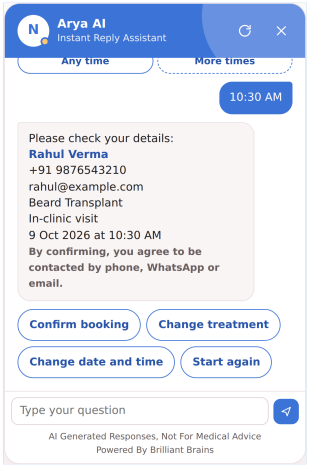

Step 7

Choose a time

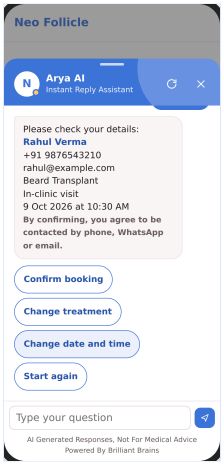

The first 4 slots show with Any time and More times. More times shows the rest up to 6:30 PM.

DEV NOTE

30 minute slots from 10:00 AM. For today, past times are hidden.

Desktop

Mobile

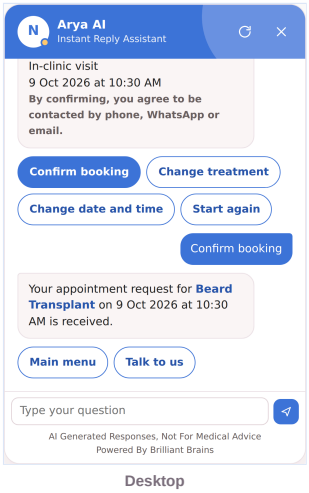

Step 8

Check the details

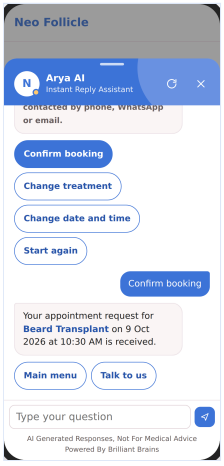

A summary with consent text, plus Confirm booking, Change treatment, Change date and time, Start again.

DEV NOTE

Consent line: patient agrees to be contacted by phone, WhatsApp or email.

Desktop

Mobile

Step 9

Request received

Your appointment request for the treatment on the chosen date and time is received. For Other, the reason replaces the word Other.

> **DEV NOTE**
> Send the lead to CRM on this step only. Main menu and Talk to us follow.

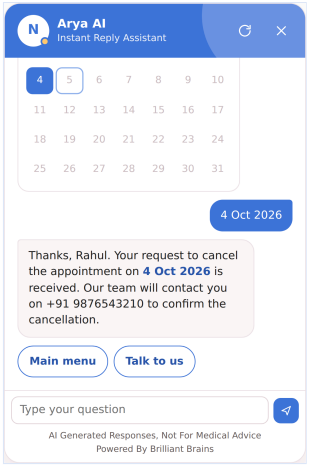

Clinic team action

- Call the patient to confirm the slot
- Update status in CRM: Booked, Confirmed, No answer

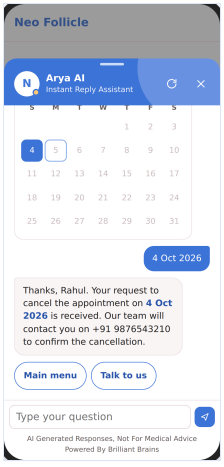

Optional upgrade

- WhatsApp OTP before confirming, see the last page
- Filters fake numbers and qualifies the lead

Cancel, reschedule, data and edge cases

Desktop

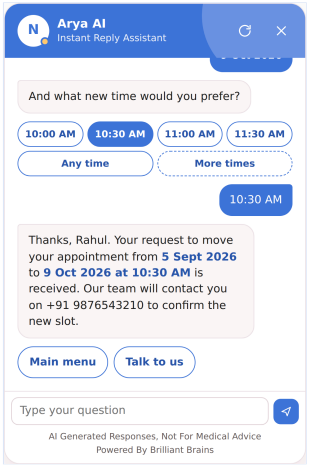

Mobile

Cancel

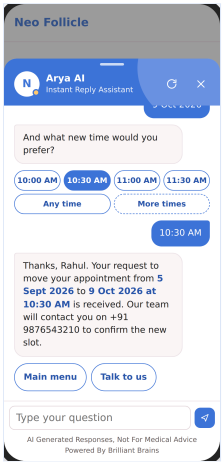

Name, number and booked date

The calendar goes back up to 2 months, so a past booked date can be chosen. Arya confirms the team will call to confirm the cancellation.

> **DEV NOTE**
> Past dates allowed only for the booked date. Tuesdays stay disabled. Tag lead type Cancel in CRM.

Desktop

Mobile

Reschedule

Old date, then new date and time

Name, number, the booked date, then a new date and time. The confirmation shows both: from the old date to the new date and time.

> **DEV NOTE**
> New date is future only and can be changed while times show. Tag lead type Reschedule with old and new slot in CRM.

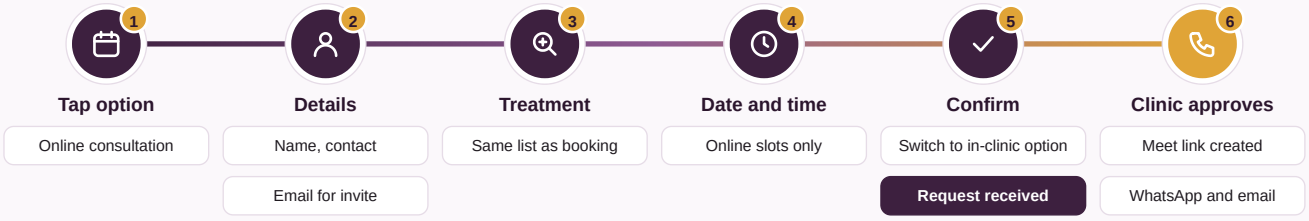

Lead data captured

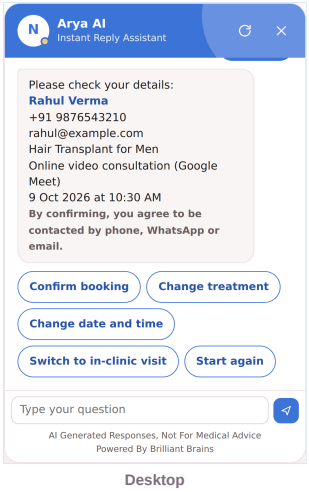

Field	Required	Rule	Example
Name	Yes	Minimum 2 characters	Rahul Verma
Contact number	Yes	IN 10 digits from 6 to 9; others 6 to 12	+91 9876543210
Email	Booking only	Valid email format	rahul@example.com
Treatment	Booking only	One of 9 options	Beard Transplant
Reason	If Other	Minimum 3 characters	Hairline correction
Appointment type	Booking only	In-clinic or Online	Online
Date	Yes	Today or later, not a Tuesday	8 Oct 2026
Time	Booking only	10 AM to 6:30 PM or Any time	11:00 AM
Booked date	Cancel and Reschedule	Past or future, not Tuesday	3 Sept 2026
New date and time	Reschedule only	Future date and slot	9 Oct 2026, 11:00 AM
Meet link	Online only	Created after staff approve	meet.google.com/abc-defg-hij
Request type	Auto	Book, Online, Cancel, Reschedule	Book
Source	Auto	Page, device, time stamp	Beard transplant page, mobile

What if

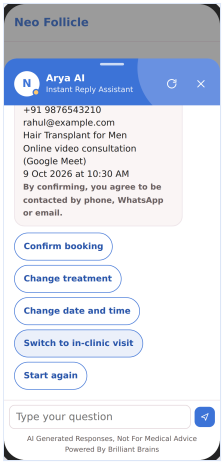

Situation	What Arya does
Wrong number or email	Asks again politely, nothing is lost
Wrong treatment chosen	Tap another treatment, or Change treatment at the details check
Wants a different date	Tap a new date while times show; slots refresh
Booked date was weeks ago	Calendar goes back up to 2 months
Booking for today	Past slots hidden; after 6:30 PM the calendar starts tomorrow
Taps another main button	Current flow stops and the new one starts
Closes the chat	Conversation stays as it was when reopened

Online consultation (Google Meet)

Desktop

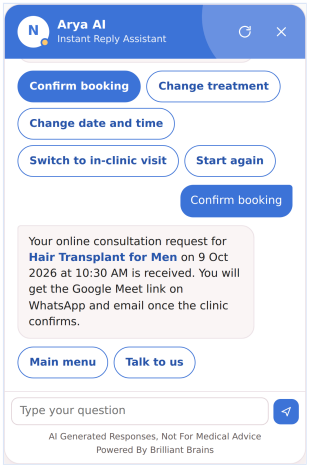

Mobile

Step 1

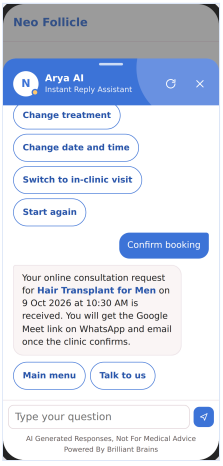

Same steps, online slots

Name, contact, email, treatment, date and time, asked one by one. The details check shows Online video consultation and offers Switch to in-clinic visit.

> **DEV NOTE**
> Typing online consultation, video call or consult from home opens this flow directly. Slots come from the doctor online availability.

Desktop

Mobile

Step 2

Request received

Your online consultation request is received. The Google Meet link arrives on WhatsApp and email once the clinic confirms.

> **DEV NOTE**
> Tag appointment type Online in CRM. No link is created until staff approve.

How the Meet link is created

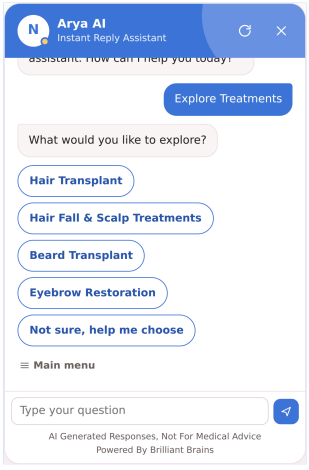

- Staff approve the request in the CRM
- Backend creates a Google Calendar event with a Meet link on the clinic Google Workspace account
- Doctor and patient invited; link sent on WhatsApp (Interakt) and email
- Reminders 24 hours and 1 hour before
- Reschedule updates the same event; cancel deletes it

Placeholders

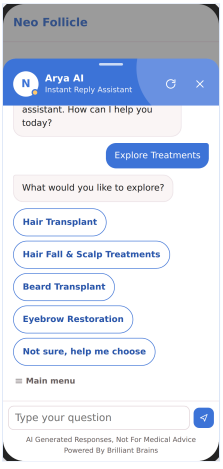

- Payment before the link (for example a Razorpay link): not in Phase 1
- Online slots set per doctor in Doctors Availability
- Well suited to international patients

How Explore Treatments works

1 Tap button	2 Choose area	3 Pick treatment	4 Act
Main menu card	**Hair Transplant**	18 topics	**Book for this**
	Hair Fall & Scalp	Short answer	Read more on site
	Beard, Eyebrow		

Desktop

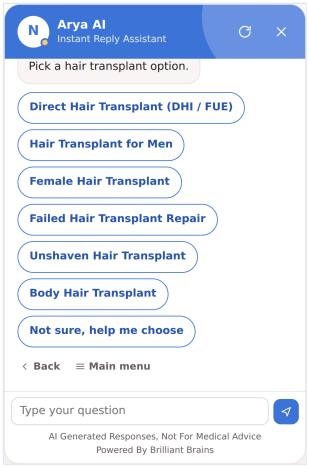

Mobile

Step 1

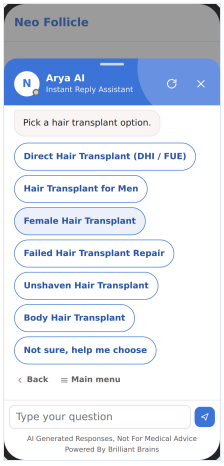

Choose an area

Hair Transplant, Hair Fall & Scalp Treatments, Beard Transplant or Eyebrow Restoration.

> **DEV NOTE**
> Pills stay visible after selection. Beard and Eyebrow go straight to the answer.

Desktop

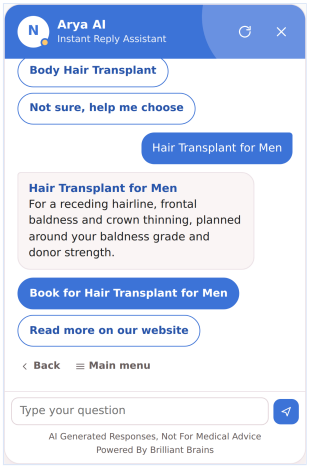

Mobile

Step 2

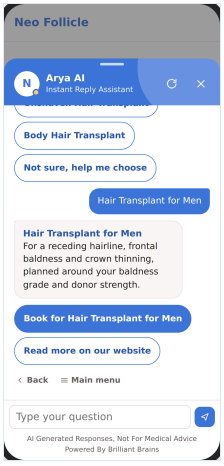

Pick a treatment

Hair Transplant: DHI / FUE, for Men, Female, Failed Transplant Repair, Unshaven, Body Hair.

> **DEV NOTE**
> Hair fall and scalp: Stem Cell, PRP, GFC, QR678, Exosome, Dutexome, Laser, Scalp Micropigmentation, Alopecia, Dandruff.

Desktop

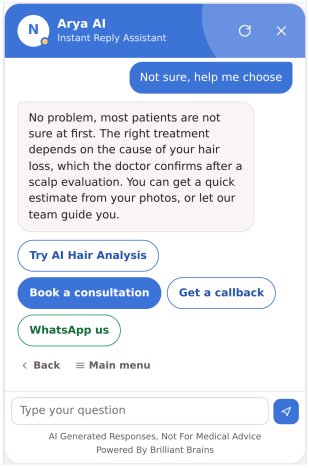

Mobile

Step 3

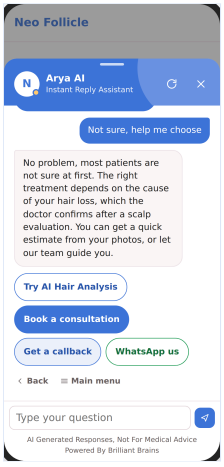

Short answer and next step

Two lines about the treatment with Book for this treatment and Read more on our website.

> **DEV NOTE**
> Book opens booking with the treatment preselected where a matching option exists. Read more links to the matching page on neofollicletransplant.com.

Desktop

Mobile

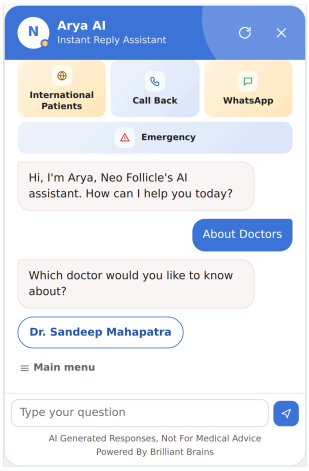

Help

Not sure, help me choose

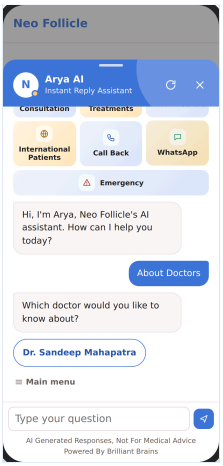

For patients who cannot pick a treatment. Arya reassures them and offers AI Hair Analysis, a consultation, a callback or WhatsApp.

> **DEV NOTE**
> Shown at the end of all three treatment lists. Booking opens with Not sure yet preselected.

About Doctors

Desktop

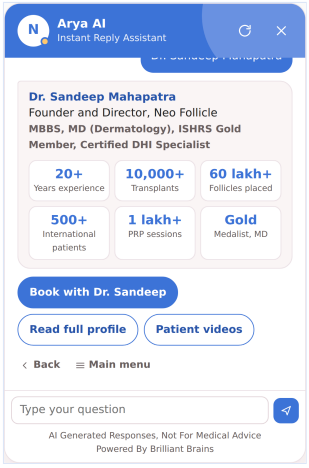

Mobile

Step 1

Choose a doctor

Arya asks which doctor the patient wants to know about and lists the clinic doctors.

> **DEV NOTE**
> Currently lists Dr. Sandeep Mahapatra. More doctors are added once the clinic confirms names and qualifications.

Desktop

Mobile

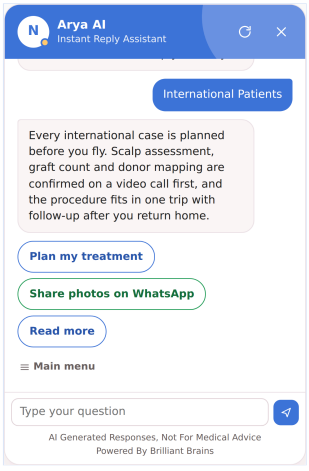

Step 2

The doctor at a glance

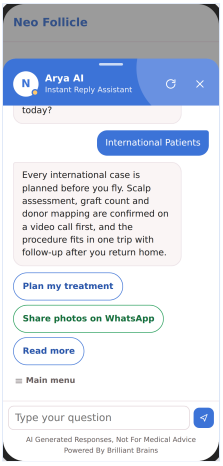

Founder and Director, MBBS, MD (Dermatology), ISHRS Gold Member, Certified DHI Specialist, and six highlights: 20+ years, 10,000+ transplants, 60 lakh+ follicles, 500+ international patients, 1 lakh+ PRP sessions, Gold Medalist.

> **DEV NOTE**
> Shown as a single message so it feels natural. Then Book with Dr. Sandeep, Read full profile, Patient videos.

International Patients

Desktop

Mobile

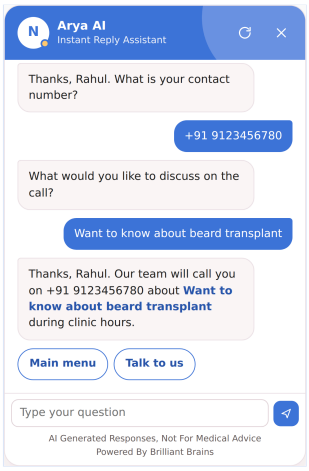

One message

Planned before travel

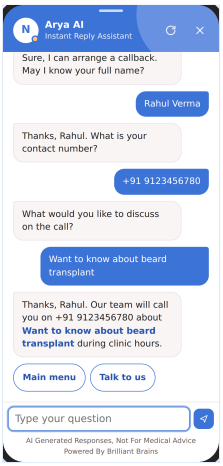

Scalp assessment, graft count and donor mapping are confirmed on a video call before travel, and the procedure fits in one trip.

> **DEV NOTE**
> Plan my treatment opens the callback flow. Online consultation suits these patients well.

Call Back

Desktop

Mobile

Step by step

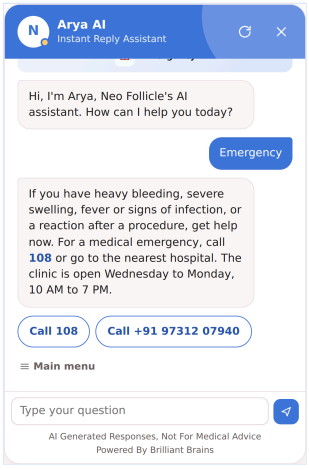

Name, number, reason

Same flow from every callback button: main menu, cost quote, treatment help, international patients and typed questions.

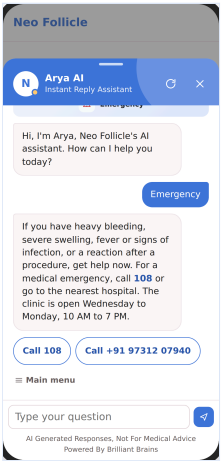

> **DEV NOTE**
> For a typed question the bot cannot answer, the reason step is skipped because the question is the reason.

Field	Rule
Name	Minimum 2 characters
Contact number	Country code plus number, same rules as booking
Reason	Minimum 3 characters
Confirmation	Team will call during clinic hours, 10 AM to 7 PM, Wednesday to Monday

Emergency

Desktop

Mobile

One message

Get help fast

Warning signs: heavy bleeding, severe swelling, fever or signs of infection, or a reaction after a procedure. Call 108 first, the clinic number second.

> **DEV NOTE**
> The clinic is not open 24x7, so 108 leads. Never route emergencies to a form.

WhatsApp

- Opens WhatsApp directly, no extra step
- Prefilled: Hi, I would like to know about hair treatment at Neo Follicle.
- Number: +91 97312 07940, link wa.me/919731207940

Safety rules for the AI

- Clinical questions: suggest a consultation with the doctor
- No diagnosis, no medicine doses
- Every AI answer marked AI generated

Design specification

Color	Hex	Used for
Clinic blue	#3E74D9	Header, launcher, selected

OPTIONAL WhatsApp OTP to qualify the lead

Added as the last step of Book appointment, after Confirm booking. It confirms the number is real and on WhatsApp before the lead reaches the clinic.

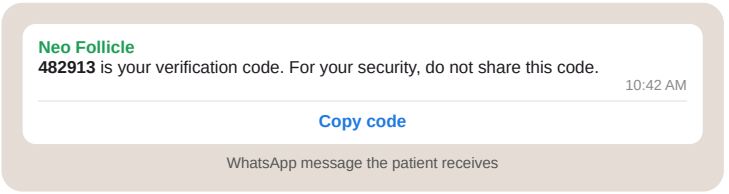

Desktop

Mobile

WhatsApp message the patient receives

Why add it

- Filters fake and wrong numbers
- Team calls only real, reachable patients
- Higher quality leads for ad reporting

Trade-offs

- One extra step, a few patients may drop
- Each code is a paid WhatsApp message on Interakt, about Rs 0.115 to Rs 0.30
- Needs an approved authentication template

Rules

Rule	Value
Code	6 digits, valid for 10 minutes
Resend	After 30 seconds, maximum 3 attempts
Not verified	Save as Unverified lead, team still calls; never lose the lead
Change number	Link below the code boxes returns to the contact step
Security	Code created and checked on the server, never stored in the browser
Cost	About Rs 0.115 to Rs 0.30 per OTP through Interakt
